DARESNI

COMPANY OVERVIEW

Helping families find the right learning opportunities without losing the moments that matter.

Bahrain-founded education technology platform | Founded 2018

Daresni is an education discovery and booking platform connecting families and learners with tutors, teachers, coaches and learning providers through a structured digital experience. It was founded in Bahrain by Hana Al Tareif after a three-day search for a French tutor for her daughter exposed how difficult it could be for families to find the right educator.

14,880+	BHD 226,995+	18,550+
BOOKINGS	**EDUCATOR PAYOUTS**	**HOURS COMPLETED**
Total bookings to date	Approx. USD 602,110+	Learning hours delivered

Current as of 15 August 2026
This edition is date-stamped so future versions can preserve a clear record of Daresni's growth over time.

Who We Are

Daresni means “teach me” in Arabic. The platform was created to close a practical gap: families were spending too much time searching through informal networks while experienced educators were difficult to discover.

The platform brings discovery, educator profiles, scheduling, booking and secure online payments into one structured experience. It supports physical and digital learning and is designed to serve both sides of the learning relationship: families looking for trusted options and educators looking to be discovered.

Our Mission

Helping families discover better learning.

Daresni exists to connect the family that is searching with the educator who is waiting to be found, making the discovery of trusted learning opportunities simple, confident and time-efficient.

Our Vision

The world’s most trusted education discovery platform.

The long-term ambition is a world where every family can find the right learning opportunity anywhere - and where talented educators and providers can build sustainable, discoverable careers in education.

DARESNI Education & Training
Daresni “teach me” is a web-based booking platform founded in 2018 that connects qualified teachers and coaches with students for physical and digital private sessions internationally.

Our Journey

2018	**A mother’s challenge** Hana Al Tareif spends three days searching for a French tutor for her daughter. The experience reveals a wider discovery problem and becomes the origin of Daresni.
2018	**A small idea** Daresni begins with a simple purpose: help families save time and give educators a reliable place to be found.
2019	**The first educator community** The early network grows through direct relationships with educators, including experienced teachers, tutors and coaches. The original iOS app is released in April 2019.
2020	**Regional recognition** Daresni reaches the semi-final stage of the GITEX Supernova Startup Competition.
2021	**Bahrain Women’s Fellowship** Daresni is selected for the Bahrain Women’s Intensive / Fellowship, connected with Halcyon and AWS.
2020-2024	**The difficult years** The business continues through technical setbacks and periods of highly manual operations. These years shape the platform’s emphasis on reliability, trust and simplicity.
2024	**LEAP Riyadh** Daresni participates in LEAP Riyadh, extending its regional startup and technology presence.
Late 2025	**Building again** Daresni is rebuilt from the ground up, incorporating years of operational experience and user feedback.
2026	**A new generation** The rebuilt Daresni app and platform enter a new phase of growth, with a renewed focus on discovery, trust, booking and educator opportunity.

Impact

Every number behind Daresni represents a learning interaction, an educator opportunity or time a family did not have to spend searching informally.

14,880+	BHD 226,995+	18,550+
Bookings to date	**Paid out to educators**	**Hours completed**
Bookings arranged through Daresni	Approx. USD 602,110+ at the fixed BHD/USD peg	Completed learning and coaching time

How Daresni creates value

For families	A faster way to compare educators, view profiles and reviews, book sessions and manage learning in one place.
For educators	A professional, discoverable profile and tools to reach families, manage sessions and receive payments.
For the ecosystem	A digital marketplace that makes education supply more visible and gives learning professionals new routes to income.

Trust & Safety

Trust is central to the Daresni experience. The platform combines identity verification, transparent educator information, genuine learning-experience reviews, structured bookings, secure online payments and support processes to help families make informed decisions.

Identity verification	All educators complete Daresni's identity verification process before their profile is published.
Verified vs. Certified	Verified confirms identity. Certified educators additionally submit recognised qualifications, certifications or evidence of relevant professional experience for review.
Transparent profiles	Families are encouraged to consider experience, qualifications, reviews and teaching approach before booking.
Secure booking journey	Bookings and online payments take place through a structured platform rather than informal social-media arrangements.
Reviews	Reviews are intended to reflect genuine learning experiences and provide insight into professionalism, communication and teaching style.
Support & reporting	Users can report inappropriate behaviour or safety concerns to the Daresni support team for review under platform policies.

Important: Verification supports informed decision-making; it is not a guarantee of individual learning outcomes. Families should review each educator's complete profile before booking.

Recognition & Milestones

Selected public milestones from Daresni's journey:

2019	**Original Daresni iOS app released** The first iOS app was released on 12 April 2019.
2020	**GITEX Supernova Startup Competition** Semi-finalist in the GITEX Future Stars / Supernova startup competition.
2021	**Bahrain Women's Fellowship** Selected venture in the Bahrain Women's Intensive / Fellowship associated with Halcyon and AWS.
2024	**LEAP Riyadh** Participation at LEAP in Riyadh, 4-7 March 2024.
2025	**Founder investment reported** Public coverage reported BHD 100,000 invested by the founder and a network of more than 450 teachers.
2026	**New Daresni platform** A rebuilt generation of the Daresni app and digital platform enters the market.
